Re: Surface Water Change Authorization Nos. CS4-28998(B)C and CS4-23978(C)C

Dear Mr. Den Hoed:

In response to your request, the development schedule for the above referenced water right has been extended as follows:

Complete Construction: December 31, 2018

Basis of extension approval:

- Progress has been shown annually where more wine acres are developed according to new contracts.
- Approximately 70 acres remain to be planted with 35 acres expected this spring.

Please note that failure to beneficially use all or a portion of a water right for any period of five successive years can result in relinquishment of the right and reversion to the state per RCW 90.14.160 and 90.14.180. This approval for extension does not constitute a review or endorsement of other exemptions to relinquishment under RCW 90.14. Any future extension requests will require a showing of good cause and diligent efforts to complete construction and perfect water relating to the above-referenced Change Authorizations in Benton County and this extension does not suspend the need for beneficial use until that time.

Please mail in the enclosed Completed Construction Notice by the deadline above.
